Convenient links for registering can be found on our Event Calendar at mastergardeners.org/events

Our Mediterranean climate is perfect for year-round vegetable gardens. Learn how to grow a successful, environmentally responsible food garden that produces delicious vegetables and herbs every month of the year.

You'll gain hands-on in-class experience working with both seeds and seedlings, and learn the requirements of specific vegetables – both those grown in summer and those grown in fall or spring. You'll also learn how to identify and manage common pests, weeds, and diseases of vegetable crops in Santa Clara County. And best of all ... you'll get great tips from Master Gardeners who have been growing these vegetables for years and can answer questions about specific vegetables.

- In-depth adult education courses taught by Master Gardeners
- Six evening course that meets once a week
- Offered in Campbell, Palo Alto, San Jose and Sunnyvale

See mastergardeners.org/events for our Event Calendar with free public talks all throughout the county. Everything from DIY Drip Irrigation, Replace Your Lawn and Gardening with Natives to Growing Potatoes and a Ratatouille Garden!
